WILBERFOSS/A1079

The quality of life of Wilberfoss residents is seriously degraded by the difficulties which are daily encountered when seeking to gain access to the A1079 from either of the two village entrances. This has been highlighted as the single most important cause of concern to villagers in the Parish Plan published in 2008.

At peak times considerable delays are regular, and the speed and volume of traffic flowing in both directions along the A1079 make accessing an extremely frustrating and often dangerous manoeuvre.

Wilberfoss Parish Council is represented on, and supports the Action/Access/A1079 campaign, and in particular would welcome the dualling of the A1079 as it passes through the Parish.

However, the Council recognises that this may be a long-term solution, and in the meantime urges, as soon as possible, the installation at the village entrances, of 1), traffic lights, or 2). roundabouts and 3) as a matter of urgency, any further traffic control measures on the A1079 which would ease the present access difficulties.
